

2018 MAKERS WANTED BAHAMAS BOWL
Toledo Post-Practice Quotes
Dec. 18, 2018

Offensive Coordinator Brian Wright

On first day of practice...

"I thought we were real good at practice today. The energy was there. We started off a little bit sluggish, after riding on a plane and the buses and the hotel, but once we got going I was happy with what were able to get done."

On practicing in a foreign country...

"I think it is the focus out of our guys when we are working on, to lock in and focus on the details of the game plan and what each of us need to do to get better. Our motto all year has been to get better, so when we are working on football we want to get better. When we are not working on football the focus is to enjoy yourself and take it all in."

On the Atlantis...

"The Atlantis is pretty spectacular. I'm looking forward to enjoying it this afternoon with the sun out and the warm weather. I am impressed by the hotel and the hospitality of the people of the Bahamas."

Junior Offensive Lineman Bryce Harris

On traveling out of the country...

"This is my first time out of the country. Every time I've been on a plane it's been with Toledo football so this is my first time out of the country."

On his impressions of the Bahamas...

"One word – beautiful. Just beautiful. A nice breeze, sunny weather all the time and good water so it's great. The Atlantis resort is top notch – top of the line. It's really nice to get away and be able to see the fish and everything has been beautiful."
